Before investing in any exchange-traded fund, you should consider its investment objectives, risks, charges, and expenses. Contact Fidelity for a prospectus, an offering circular, or, if available, a summary prospectus containing this information. Read it carefully.

The "Tracking Basket" is designed to closely track the daily performance of the fund but is not the fund's actual portfolio. The Tracking Basket is comprised of: (1) select recently disclosed portfolio holdings (Strategy Components); (2) liquid ETFs that convey information about the types of instruments (that are not otherwise fully represented by the Strategy Components) in which the fund invests; and (3) cash and cash equivalents. Until the fund publicly discloses its holdings for the first time, the Tracking Basket will be generated using the holdings of a non-disclosed model portfolio that the fund's adviser will manage in advance of the fund's launch.
